

Define Problem Statements

Date	04 July 2026
Team ID	
Project Name	Rising Waters – Flood Prediction System
Maximum Marks	3 Marks

A customer problem statement was created to understand the flood-affected community's point of view and ensure the solution focuses on what matters most to them.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A resident / local authority in a flood-prone region	Assess the flood risk before heavy rainfall events occur	existing forecasts are generic and not tailored to local conditions	traditional forecasting relies on manual meteorological analysis with delayed reporting	anxious and unprepared for potential flooding
